A Glimpse into the Acoustics Conference 2024: Hancock Industrial Ltd's Captured Highlights and Moments

We are excited to share our experience from the Acoustics Conference 2024!

It was a huge success with a great turnout and lively, engaging sessions. We enjoyed meeting industry professionals and enthusiasts, and we appreciate everyone who attended and made the event special.

Thank you for being part of it!

"Your Questions, Our Answers"

We were thrilled to receive a flurry of insightful questions from visitors at our stall during the Acoustics Conference 2024. We will soon be sharing our responses on LinkedIn.

Follow us on LinkedIn for updates and detailed responses from the event. Stay connected for the latest insights and discussions!

NEW ACOUSTIC SOLUTIONS CASE FOR STRUCTURAL ISOLATION

This case is aimed at all acoustic engineers and industry professionals to help and improve the process of selecting common solutions for structural isolation of floors, walls, and ceilings.

The case includes samples of components used in the field of structural isolation, ranging from ceiling mounts, wall mounts to floor mounts. Each sample has been selected to provide a comprehensive overview of the available options. Moreover, due to the construction differences between countries and cultures, we have different cases for each case.

The case incorporates an informational panel featuring a "BOX IN BOX" isolation representation accompanied by QR codes that provide access to detailed installation videos and laboratory tests of the tested parts.

"All good chief"—Sam Edwards, TCC Boats

We're thrilled to receive such positive feedback from Sam Edwards. His satisfaction with our products and service is greatly appreciated!
